Tying shoelaces

Name _____

Self-care

Say it, then do it. Colour in each number when it's done.

1. Cross the laces
2. Tuck one under and pull tight
3. Make a bunny ear
4. Wrap the other lace around it
5. Push it through the hole
6. Pull both ears tight

Draw your shoes!

My tricky bit is...

For grown-ups: practise on a shoe on the table first, not on a foot. Two different coloured laces make each side easy to follow. Teach one step at a time and say the same words each time, so they become a little script.
